diffuse light

Dynamic LED diffused light table lamp. Dimmable. Painted aluminium base, borosilicate glass structure, Lycra® top membrane.
The lamp comes with 3 borosilicate glass spheres of different weights: 0.3 Kg, 0.7 Kg and 1.3 Kg.
The number and weight of the spheres that are placed on the fabric change the intensity and hue of the light emitted by exploiting an LED source with dynamic white: with light weights it is more delicate and warm, adding spheres the light becomes stronger and colder.
