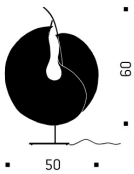
Yoruba Rose
DAGMAR MOMBACH, INGO MAURER & TEAM 2017

Yoruba Rose captivates with grace and perfection of form. The paper sheet is almost circular and suspended on fine metal rods. Its upward-reaching harmonious expression and extremely pleasant light make it the ideal light source for spaces where one wants to relax. Yoruba Rose is part of the MaMo Nouchies collection, developed by Dagmar Mombach together with Ingo Maurer and his team. As with all MaMo Nouchies, the shade is made of Japanese paper. It is shaped into the desired form in Dagmar Mombach's manufactory through several elaborate steps. Inside is an LED module with a heat sink. This module was specially developed by the Ingo Maurer team for the MaMo Nouchies. The light is warm and soft, hardly distinguishable from familiar halogen light.



Light source
LED 9 W, 970 lm, 2700 K, CRI>90, EEC F (A-G). With built-in LEDs. The light source is not exchangeable by the user, but by an electrian.
