

miniTensoSferico

ACCNMTN.00347

A 230V cable-mounted led miniTensoLuminaire, with twin emission for direct and indirect light. Available in an on/off version with a dimmer fitted with traditional controls and Casambi. The miniTensoSferico with a white or silver structure comes with transparent methacrylate domes with focusing lenses for accent lighting or opalescent methacrylate domes for soft diffused lighting. This elegant little 14 cm diameter sphere is ideal in small and medium-sized rooms. This luminaire is fitted with TensoClic, the patented insulation-piercing connector.

Characteristics
