

Passepartout25 Sopratavolo

ACCNPPT.01125

Sospensione sopratavolo is a twin light emission luminaire for interiors with dimming. Also available with touchless sensory or built-in Casambi dimming, the finishes are gold with a matt-coloured structure, or polished chrome, matt white or black with a structure in diamond-finished aluminium. Ideal for single or multiple installations on surfaces or over tables or long counters. The luminaire's high colour rendering index (CRI) guarantees respect for colour perception and the combination of the two sources makes the light balanced. A ceiling rose accessory is available that enables several luminaires to be connected in series.

Characteristics

Material	Steel, Aluminium
Finish	Black RAL 9005
Configuration	Suspension
IP rating	IP 20
Insulation class	1
Lamp/Led	LED
Power supply	included
