

Nodo T 2

CL16830B2

Nodo is a family of tiny ceiling lamps, available in round or square versions. Compact and discreet, they are designed to illuminate spaces with precision, integrating naturally into the architecture. A distinctive feature is the transparent hemispherical lens, which defines the product's identity and characterises its light output. Available in numerous colours and two-tone versions, Nodo allows for great compositional freedom. The family is also available in multiple pre-assembled configurations of 2, 3 or 4 modules, in both round and square versions, to create rhythmic compositions and coordinated lighting solutions. A minimal, recognisable sign, capable of enhancing light with discretion.

Characteristics

Material	Aluminium
Finish	Black RAL 9005
Configuration	Ceiling
IP rating	IP 20
Insulation class	1
Lamp/Led	LED
Power supply	included
Dimming	Phase-cut
Watt	16W
Volt	220-240V
°K	2.7K
Emission	Direct
Lumen	1330 lm
Real lumen	1060 lm
CRI	CRI > 90
Version	60° lens
Width (mm)	187
Length (mm)	406
Height (mm)	52
Weight (g)	650
Certifications	UKCA, CE

Color: Black RAL 9005
