

Lampampe
INGO MAURER 1980

Japanese paper, metal. Lampampe is part of a series of simple lamps made of Japanese paper that Ingo Maurer developed in the late 1970s / early 1980s. In this design, he takes up the shape of traditional lampshades and yet formulates a new aesthetic. The shades are handmade in our production facility in Munich. The paper creates a soft, completely glare-free light. The paper is slightly creased as a deliberate design element.

Light source

E27 socket, max. 100 W, supplied without bulb. Suitable for bulbs of energy classes EEC A-G, which can be replaced by the user.

Technical data

For 100 - 240 volts

More info

Not suited for rooms with high humidity.
