

Lucellino Table
INGO MAURER 1992 / 2022

Lucellino Table is the table lamp from Ingo Maurer's classic Lucellino series. The winged light bulb floats above the table and captures attention! The new feature is the Ambient LED bulb, developed specifically for the Lucellino series to get even closer to the classic halogen bulb. It combines the advantages of LED technology with the qualities of incandescent light. It offers the efficiency of an LED while preserving the light quality and dimming behavior of a halogen bulb. The matte Ambient LED bulb operates at 12 volts and, in combination with the integrated LED power supply and slider in the transparent cable, creates a pleasant, warm light. The bulbs are manufactured exclusively for Ingo Maurer GmbH and come with the signature red soldered cable. Materials: Handcrafted wings made of goose feathers, glass, brass, plastic

Light source

With LED Ambient bulb 12 V AC, A60, E27, matte. 5 W, 380 lm, 2000–2700 K, dim-to-warm, 20,000 h, CRI >90, EEC G (A–G). The bulb can be replaced by the user.

Technical data

For 100–240 volts, power supply with slider, secondary 12 V AC.
