

Max. Mover
INGO MAURER & TEAM 2000/2017

Metal, pure aluminium, fibreglass Max. Mover is attached to only two suspension points. The reflector made of high-gloss pure aluminium can be positioned in a large radius in just a few simple steps. The telescopic rod can be extended from 110 to 210 cm. The rod can be tilted and rotated 180° thanks to its nylon rope suspension. The reflector can be adjusted continuously in two directions using its handle. Max. Mover comes with a cable and plug, so it can also be easily operated via a wall outlet.

Light source

LED, 1380 lm, 2700 K, CRI 97, 12 W, EEC 2019/2015/EU: F (A-G). With built-in LEDs. The light source cannot be replaced by the user, but by professionals. Light source type: Integrated LED Socket: With integrated LED

Technical data

Primary voltage: 220–240 V Secondary voltage: 12 V Colour rendering: 90 Ra Power: Max. 12 W Light colour: 2700 K Luminous flux: 1380 lm

More info

The switch is located at the end of the rod. The LED module can be dimmed using a built-in dimmer, which is not included in the delivery. We recommend the following dimmer for 230 volts: Busch-Jaeger 6523 U.
