DESCRIPTION

The Hoy family, developed by Artemide in collaboration with Foster+Partners, is designed to be integrated into spaces as a single element, as a system or within functional lighting tracks.

The system combines spots with linear modules with diffused but controlled light $UGR < 19$ to create suspended or SMD geometries that are also perfect for the office world. Thanks to this flexibility of application in spaces, to the quality and the wide range of performances Hoy is perfect for every application space, from retail to office, from residential to hospitality.
