

## Luce Cilindrica S1

Designed by Ronan Bouroullec, 2025

110W - 5698lm - 2700K - CRI> 95

Modular suspension lamp emitting diffused light. Horizontal body in polished extruded aluminium with two linear LED sources for upward and downward emission. Integrated touch dimmer enables independent control of light outputs. Body encased in a sequence of borosilicate glass cylinders separated by traditional spacers. Can be installed in multiple parallel rows.

Designed by Ronan Bouroullec, Luce Cilindrica unites craftsmanship with industrial technique in a sculptural modular suspension. Defined by transparency and lightness, it carries an almost unreal delicacy, a luminous body that seems to hover on the brink of disappearance. An ode to simplicity, Luce Cilindrica reflects Bouroullec's gift for instilling functional design with emotion, creating a luminaire that is quietly magical and deeply faithful to his poetic sensibility.
